

VERMONT JUNIOR FOOTBALL CLUB

SMOKE FREE POLICY

Purpose

The Vermont Junior Football Club (VJFC) recognises that passive smoking (inhaling second-hand smoke) is hazardous to health and that non-smokers should be protected from tobacco smoke. Passive smoking can lead to other serious illnesses such as bronchitis, lung cancer, cardiovascular disease, and chest illnesses in children. Accordingly, the following policy has been developed by VJFC to help protect people's health and safety.

A Smoke Free environment supports the VJFC's desire to create and maintain a healthy and safe family friendly environment. The VJFC believes that such an environment and image will be advantageous in protecting the health of our members, attracting new members and positively promoting the club in the community.

Legislation and the legal duty of care also provide reasons to have a Smoke Free club. Under common law the VJFC has a legal duty of care to ensure that employees, volunteers, players and officials are not exposed to potentially harmful situations. The Occupational Health and Safety Act also stipulates that employees and working volunteers must have a safe environment to work in. Victorian Smoke Free dining legislation also states that enclosed dining areas must be Smoke Free.

This policy applies to all members, administrators, officials, coaches, players and visitors of the VJFC.
